

FUNKTION-ONE

RESOLUTION 5

The Resolution 5 Touring is a very high efficiency, three-way, narrow dispersion, long throw, upperbass/mid/high loudspeaker enclosure. Its highly controlled dispersion, in combination with the flying system, enables precise tailoring of the overall system coverage. Unwanted reflections are thereby substantially reduced maintaining the enclosure's already high intelligibility. The system's flexibility in application renders it suitable for any venue size from 500 people to the largest stadia, thereby maximising use of rental inventory. Its innovative and simple integrated flying system, combined with minimal size and weight, allows two people to fly and trim an arena cluster in under half an hour. The Resolution 5 is economic in terms of system cost, production budget and truck space. It incorporates holistic waveguide and driver design and above all the sonic quality is without equal.

Features:

- Practically seamless array implementation
- Minimal size and weight
- Minimal processing and no EQ required
- Integrated inter-cabinet flying system
- Includes extremely effective wheelboard
- Easy load in/out of venue
- Funktion One designed Neodymium drivers
- Identical size to Resolution 4 and 18 for easy system integration
- Optional fine cloth scrim grill in grey or black

Driver	Freq. Band	Sensitivity (1W at 1m)	Power (rms)	Nominal Impedance
12"	114 - 445 Hz	105 dB	300W	8Ω
8"	437 - 5k77Hz	111 dB	200W	16Ω
2x1"	5k77 - 18kHz	113 dB	100W	16Ω

Frequency Response \pm 3dB: 114Hz - 18kHz

Weight (without wheelboard): 49 kg (108 lbs)

Nominal Dispersion: 25° Horizontal x 20° Vertical

Connectors: EP6 panel and captive lead in cable recess
